

# WHO WE ARE

Over 60+ million beneficiaries reached through our diverse and global community

## UNITING TO TRANSFORM EDUCATION

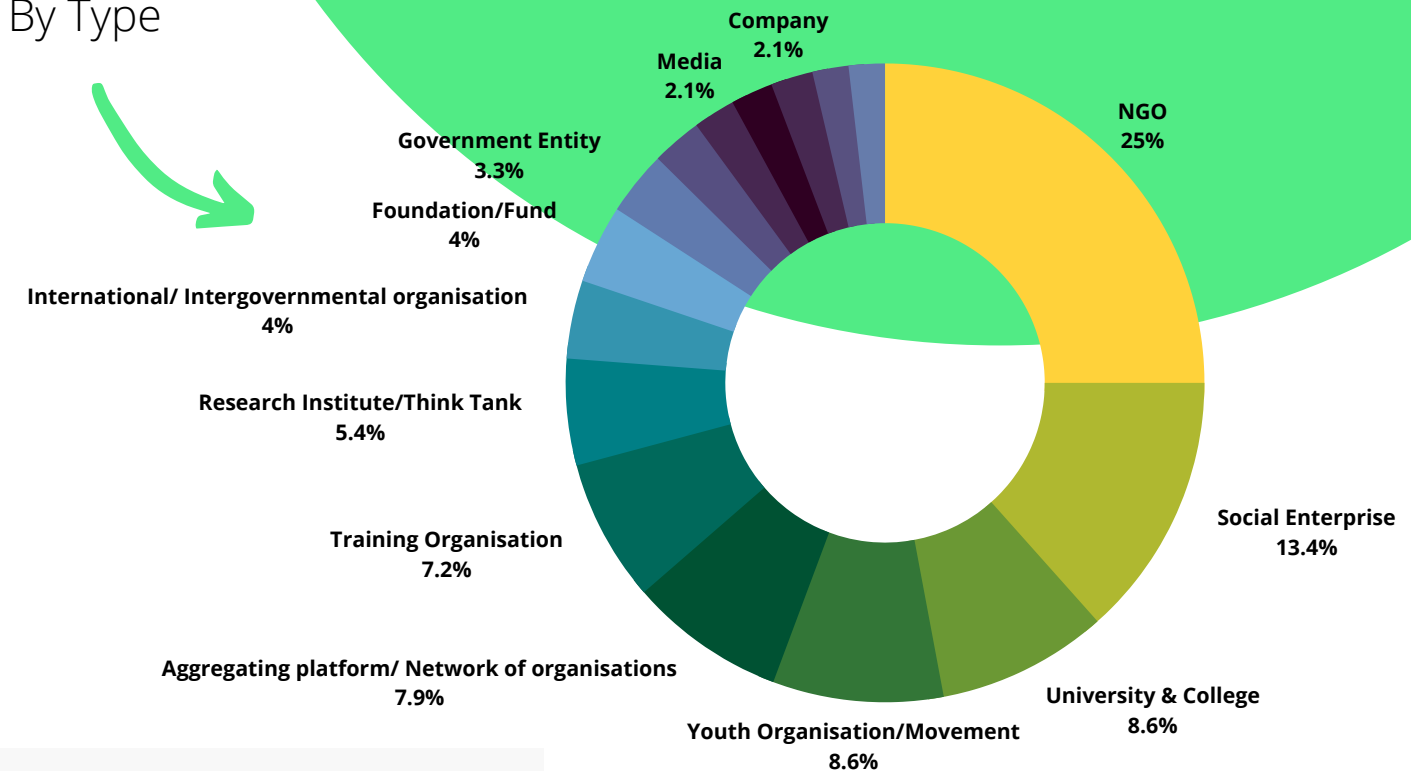

Created in 2020 by the Learning Planet Institute and UNESCO, we are an established and growing global community of diverse game changers and institutions learning to take care of oneself, others and the planet.

Our Alliance unites all change actors, from grassroots players and innovators (universities, NGOs, youth movements, social entrepreneurs...) to cities, national governments and multilateral organisations. Together we co-create new ways of learning, teaching, and researching by sharing our data, practices, knowledge and experience.

We present ourselves as a middleground, bridging the gap between a diversity of actors in the educational sphere, and between the needs of our planet and educational outcomes.

## WHAT WE DO

### LEARNINGPLANET CIRCLES

Circles bring together organisations committed to the same thematic priorities. They are dedicated spaces advancing the dialogue among a diverse set of stakeholders (institutions, educators, social entrepreneurs, committed citizens and youth) and creating and/or supporting impactful projects. Discover all our Circles [here](#) and [join one of them!](#)

Youth Empowerment, Leadership and Participation is a key priority for LearningPlanet. Discover our youth-related activities [here](#)

Our [Youth Council](#) and our [Youth Fellows](#) grew from this Circle!
